

EXTENSION[®] “Triple E” Program

No risk/obligation/cost program to evaluate EXTENSION[®]

We're so confident that EXTENSION[®] can help your practice or hospital that we're giving it away without obligation for 60 days! We provide you with an EXTENSION[®] appliance, EXTENSION[®] workflows, and EXTENSION[®] Professional Services — our **“Triple E” Program!**

Here is how the program works:

- We ship you a fully-functioning EXTENSION[®] appliance
- We help you set it and configure workflows and rules
- We help you connect it to your own telephony system
- We help you configure some interfaces
- You evaluate EXTENSION[®] for 60 days
- If you agree with its value delivered, you keep EXTENSION[®] and we invoice you
- If you don't, simply ship the appliance back and no charges are incurred

It costs you nothing:

- There is no cost to enroll in the Triple E program
- A deposit of \$4000 is required for the appliance. This is done via credit card or corporate PO. If the unit is returned within 60 days, your money or credit card is refunded.

Common systems interfaced include (EXTENSION[®] works with any HL7-compliant system):

NextGEN	EPIC
Allscripts	Cerner
Centricity	Centricity Enterprise
Greenway	McKesson
Misys	Siemens

We'll help you create new and innovative ways to use EXTENSION[®] within your practice or hospital. Commons workflows include:

- View patient clinical information on any device (including IP phones)
- Update patient chart on mobile devices and IP phones
- Diagnose and enter charges on any mobile device and IP phones
- View lab results and observations on any mobile device and IP phone
- Notifications for lab results, refill requests, appointments and more!
- View scheduled appointments on your MS Outlook calendar
- Auto chart popup on phones and devices (based on caller ID)
- Many more! EXTENSION[®] is very customizable and works with any HL7-compliant system!

EXTENSION[®] provides the following benefits:

- Realization of ROI on your existing IT investments such as telephone system and medical applications
- The boost of 'intelligence' to your data and telephony system
- Vendor consolidation
- Reduced errors and increased accuracy
- Increased productivity and lowered costs
